In addition, approval for any changes to the Premises will require a written plan addressing the actions that will be taken to prevent the release or exposure of asbestos fibers. This restriction does not apply to hanging pictures and/or wall ornaments with hangers less than ¼' in diameter.

TENANT'S DUTY TO REPORT. It is the Tenant(s)'s responsibility to immediately inform the Landlord in writing if they notice any of the following:

1. Any damage to areas of the Premises which may have released asbestos fibers.
2. Any signs that building material may have been disturbed, including but not limited to, holes larger than ¼" in diameter, evidence of a water leak, and/or any appearance of crumbling or peeling in the wallboard or ceilings.
3. The actions of another individual on or around the Premises that may have caused asbestos fibers to be released.

LANDLORD ACCESS. The Tenant(s) will provide the Landlord access to the Premises within twenty-four (24) hours of their notification to the Landlord of any damage or signs that may indicate that asbestos fibers have been released within or around the Premises. In accordance with this Disclosure and the Lease Agreement, the Tenant(s) shall also allow access to any asbestos professional hired by the Landlord to inspect and remedy the situation.

VIOLATIONS. Any violation of this Disclosure is a violation of the aforementioned Lease Agreement and is subject to the actions set forth in the Lease Agreement, including the termination of the tenancy and payment for damages. Further, the Tenant(s) may also be subject to fines and penalties if in violation of any applicable health or safety codes.

INDEMNIFICATION. The Tenant(s) agrees to indemnify and hold harmless the Landlord from any loss, damage, liability, attorneys' fees, and costs that are the direct or indirect result of the release of asbestos fibers caused by the Tenant(s), other individuals occupying the Premises, or their guests.
